

COMPUTER & NETWORK SOLUTIONS

Incorporate Solutions provide a complete Installation, Networking and Maintenance Service for your business computer systems.

We offer a wide range of services designed to provide the best possible products and after sales care to keep your computers (and therefore your business) working.

These services include and are not limited to the following:

- *Hardware and software supply at competitive prices*
- *Maintenance of servers, pc's, peripherals and networks.*
- *Configuration and testing of network infrastructure*
- *Operating System Installations*
- *Customer Software Installations*
- *Virus Removal & Security Services*
- *On-site Support Services*

Our clients range from sole traders to blue chip companies. All benefiting from a service tailored to their specific needs.

We are very flexible in our contacts with our client determining the level of support required.

Much of our work is undertaken on our client's premises at a time to suit them. Major installation work is usually carried out after normal working hours with the aim of minimal disruption to their business. We do not charge a premium rate for this service.

As you would expect Incorporate Solutions has full public and employer liability and operates a strict health and safety policy.
